

KEERTHIVASAN K

QA Tester | Full-Stack Development

Chennai, Tamil Nadu, India | +91 9344215101 | keerthivasan487@gmail.com | github.com/keerthivasank04

PROFESSIONAL SUMMARY

Computer Science postgraduate with 10 months of professional backend development experience and hands-on QA expertise across the full testing lifecycle, built through industry work and independently executed projects in manual testing, API testing, and test automation. Skilled in test case design, defect reporting, REST API development and validation, and Selenium-based automation using the Page Object Model. Strong foundation in SDLC/STLC, Core Java, and full-stack web technologies, with a detail-oriented, process-driven approach to quality.

CORE QA SKILLS

Manual Testing • API Testing • Functional Testing • Regression Testing • Equivalence Partitioning & Boundary Value Analysis • Test Case Design & Documentation • Bug Life Cycle & Defect Reporting • SDLC / STLC

TECHNICAL SKILLS

- **Automation Testing:** Selenium WebDriver (Page Object Model), TestNG
- **API Testing:** Postman, REST APIs, HTTP Methods & Status Codes, JSON
- **Programming Languages:** Core Java, Python (FastAPI, scikit-learn), SQL (PostgreSQL)
- **Full-Stack Development:** Node.js, Express.js, Next.js, React, FastAPI, REST API Development, Prisma ORM
- **Frontend:** HTML5, CSS3, JavaScript, Responsive Web Design
- **Databases:** PostgreSQL, SQLite, Database Schema Design & Normalization
- **Tools & Practices:** Git, GitHub, Maven, Docker, Postman, Agile/Scrum

PROFESSIONAL EXPERIENCE

Junior Backend Developer | K2 Web & Solutions, Chennai | 2024 – 2025 (10 Months)

- Built and maintained REST APIs using Node.js and Express for a real-time ambulance dispatch system.
- Designed a normalized SQLite database schema covering requests, assignments, and status tracking.
- Worked in an Agile team with weekly sprints, contributing to backend features and bug fixes.
- Documented and tested all API endpoints using Postman for smooth frontend integration.

PROJECTS

Manual Test Case Design & Execution | SauceDemo E-commerce Website (saucedemo.com)

- Designed and executed 30+ manual test cases covering Login, Inventory, Cart, and Checkout modules of the SauceDemo e-commerce application.
- Executed test cases, documented test results, and maintained a structured test case repository using Google Sheets following STLC practices.

REST API Testing Suite | Restful-Booker API (restful-booker.herokuapp.com)

- Designed and executed 20+ API test cases across GET/POST endpoints, covering positive, negative, and boundary scenarios.
- Built and maintained a Postman collection with environment variables and automated assertions for status codes and response validation.
- Verified response schema and data integrity across multiple endpoint workflows.

ML-Powered Scholarship Selection & Verification Platform | FastAPI, scikit-learn, Node.js, Next.js, PostgreSQL, Prisma, Docker, Selenium

- Built a multi-service scholarship platform with role-based portals, using FastAPI and scikit-learn for anomaly detection and fair shortlisting.
- Designed a PostgreSQL database with Prisma ORM and a Next.js frontend; deployed all services with Docker.
- Built automated regression tests with Selenium across role-based portals as part of ongoing QA automation skill-building.

Selenium Test Automation Framework | In Progress

- Built an automated regression suite of 8–10 test cases using Selenium WebDriver and TestNG, structured with the Page Object Model for maintainability.
- Implemented explicit waits and reusable page classes to reduce flakiness and improve test reliability.
- Automated end-to-end coverage of login, cart, and checkout workflows.

EDUCATION

Master of Science, Computer Science — Completed 2026

Agurchand Manmull Jain College (University of Madras), Chennai

Bachelor of Science, Computer Science — Completed 2024

Agurchand Manmull Jain College (University of Madras), Chennai

CERTIFICATIONS & LANGUAGES

- **Certification:** UI/UX Design – Figma
- **Languages:** English (Professional), Tamil (Native)
